Education

Indiana University Bloomington

Master of Science, Computer Science(GPA: 3.8/4)

Aug 2021 - May 2023

Bloomington, Indiana

University of Mumbai

Bachelor of Engineering, Electronics Engineering(CGPA: 8.89/10)

Aug 2017 - Oct 2020

Mumbai, India

Technical Skills

Languages: Python, JavaScript, TypeScript, Java, HTML5/CSS, SQL, Ruby, PHP

Cloud/DevOps Tools: AWS(S3, EC2, RDS, IAM, Lambda), Kubernetes, Jenkins, Docker, JIRA, Git

Database: MySQL, MongoDB, PostgreSQL

Libraries: React, jQuery, Ajax, Bootstrap, Angular Material

Frameworks: Angular, React Native, Node.js, Express.js, CodeIgniter, Jasmine, DialogFlow

Experience

Hazlnut LLC

Software Developer

Jul 2023 - Present

Jacksonville, Florida

- Demonstrated effective project execution by completing end-to-end development of the chatbot within 65 days, resulting in a remarkable 35% increase in business growth and customer acquisition.
- Engineered the chatbot with seamless integration of Voice Recognition and Chat Messaging capabilities for human-like conversations, generating valuable insights for enhanced business strategies.

CNS - Indiana University Bloomington

Angular Developer

Jul 2022 - Dec 2022

Bloomington, Indiana

- Designed an interactive portal using Angular to display detailed analysis of biomedical data in the form of graphs, resulting in 40% increase in user engagement.
- Optimized state management using NGXS, enhancing component reusability by 15%.
- Implemented automated data entry validation, that streamlined processes, resulting in a reduction of errors by 10%.

Indiana University Bloomington

Graduate Teaching Assistant

Jan 2022 - May 2022

Bloomington, Indiana

- Partnered with professor to create supplementary resources and presented it to the class that boosted student engagement by over 40%, resulting in increased class participation and improved exam scores.

Waaree Energies Ltd.

Software Engineer Intern

Nov 2020 - Mar 2021

Mumbai, India

- Engineered a full stack website that facilitated centralized access by housing and compiling data into unified database, improving speed of query search by 30%.
- Collaborated with cross-functional teams for testing and implementing multiple microservices using Java, Spring Boot, and Docker that boosted application scalability by 15%.

Projects

Hazl Voice Bot | *Node.js, Express.js, JavaScript, MySQL, DialogFlow, Twilio, OpenAI*

Jul 2023 - Sep 2023

- Built a feature-rich bot with Voice Recognition and Chat Messaging, boosting user engagement by 25%.
- Administered elevated privileges for specific users reducing efforts for backtracking by 20%.

Spoke-Bric | *Angular, TypeScript, HTML5/SCSS, Jasmine, Angular Material*

Jul 2022 - Dec 2022

- Developed a user-friendly dashboard interface, utilizing interactive data visualization techniques to enable biomedical researchers to quickly analyze and interpret research papers, resulting in a 30% reduction in analysis time.
- Generated custom test cases using Jasmine for evaluating software and ensuring 100% edge case coverage.

Rental and Service Application | *React, Node.js, JavaScript, Express.js, MongoDB*

Aug 2021 - Dec 2021

- Orchestrated a website showing product listings with location mapping for convenient nearby rental searches.
- Integrated Voice Recognition with search,filter and recommendation functionality for page redirection which enabled hands free access and improved 20% engagement of the website.

Certifications

AWS Cloud Quest: Cloud Practitioner

Mar 2023
